

MV 5 Premium

More than class: The top class MV 5 Premium multi-purpose vacuum cleaner! The power consumption is only 1100 watts, although the device features an exceptional suction performance of 1800 watts. The multi-purpose vacuum cleaner is equipped with a corrosion-resistant 25-litre stainless steel container and innovative filter removal technology, which allows you to conveniently remove the flat fold filter in seconds by folding out the filter cartridge. The filter is also suitable for wet and dry suction with no need to change the filter. Thanks to integrated filter cleaning, the dirty filter can be efficiently cleaned at the push of a button with strong pulses of air, so that suction performance is quickly restored. The interchangeable floor nozzle with 2 rubber & 2 brush strips and the innovative suction hose guarantee optimal intake of all types of dirt and offer maximum cleaning convenience. The handle with protection against static (especially useful when vacuuming fine dust) is removable and enables the attachment of accessories directly to the suction hose. Other convenient features, such as parking position, blowing function, 3-in-1 adjustable handle and cable & accessory storage, complete the device's profile.
