## Details

### Description

The SGV 6/5 steam vacuum cleaner is very versatile. Self-explanatory symbols make the machine easy to understand and use. The EASY-Operation selector switch and ergonomic handle with trigger for controlling the steam and vacuum functions enable the machine to be used after brief instruction and allow fast and flexible control of individual functions during operation. Accessories can be stored directly on-board, protected from dirt and easily accessible.

---

### Features & Benefits

Extremely user-friendly thanks to EASY Operation

One turn switch for all functions. Simple and quick handling, with no need for extensive training.

Self-explanatory symbols make the machine easy to understand and simplify operation.

Handle with trigger for convenient function control

Controls for the most important functions such as water/steam regulation and an on/off switch for the vacuum function.

Time-saving, flexible, simple and direct control of the functions during operation.

Programs for every application (SGV 8/5)

Power input and noise reduction for cost and energy savings thanks to eco!efficiency mode.

Self-cleaning mode: cleaning of hoses, pumps and tubes. For restoring hygiene and cleanliness.

Chemical function for dissolving stubborn dirt using chemicals. (Rinsing programme protects against aerosols).

Cleaning without chemicals

Dispensing with the use of chemicals protects the environment and saves costs.

Hygienic cleaning of hard surfaces without the use of chemical substances.

Easy removal and disposal of dirty water without direct contact.
