Details

Description

The SGV 8/5 leaves nothing to be desired. The extremely user-friendly steam vacuum cleaner offers practical chemical and self-cleaning functions, guaranteeing absolute hygiene and cleanliness. The machine also boasts easy and comfortable operation. The Easy Operation selector switch and ergonomic handle with trigger for controlling the steam and vacuum functions make it easy to learn how to use. All of the functions can be controlled quickly, easily and directly during operation. The state-of-the-art eco! efficiency mode doesn't just save on costs. Even working in noise-sensitive areas is possible without further steps. The accessories can be stored directly on the machine, protecting them from dirt and ensuring they are always close to hand.

Features & Benefits

Extremely user-friendly thanks to EASY Operation

One turn switch for all functions. Simple and quick handling, with no need for extensive training.

Self-explanatory symbols make the machine easy to understand and simplify operation.

Handle with trigger for convenient function control

Time-saving, flexible, simple and direct control of the functions during operation.

Controls for the most important functions such as water/steam regulation and an on/off switch for the vacuum function.

Accessories are stored for easy access and protected against loss. Carrying handle for easy removal of nozzle accessories.

Programs for every application (SGV 8/5)

Self-cleaning mode: cleaning of hoses, pumps and tubes. For restoring hygiene and cleanliness.

Chemical function for dissolving stubborn dirt using chemicals. (Rinsing programme protects against aerosols).

Cleaning without chemicals

Dispensing with the use of chemicals protects the environment and saves costs.

Hygienic cleaning of hard surfaces without the use of chemical substances.

Easy removal and disposal of dirty water without direct contact.
